Is there anything that can ne done to bring the transit program there are people with mo means of transportation or a disability that reframes them for driving. Winter is short coming what can be done to bring this program back? This was a great help to the community.

Ask lee Brennan and red or better yet ask Trish why she didn't pay the bill I have no control of that!!! They seem fixed on blaming me for everything but you don't need to hear all that and I apologize.....idk..... Maybe we can use that golden buffalo bus and start our own transit ...why not ? Right !!! We are paying someone to come and give our people rides why can't we do it ourselves??? I think we have enough vehicles to pull it off.... It would also employ more of our own..... Just a thought

Yup people needs rides there but yes that does sound better for the casino bus that's not being put to use that can help keep money round down there

Yesterday I had informed the BIA police that we might need their assistance in the removal of this non-Indian employee from the tribe , their response was there was concern about the banishment part, that would need council resolution, okay fine I expect that but the fact is he still fired so I made note of that ! But today when the BIA police were called to assist he made a comment that through me for a loop ! He said that he was informed by his superior that we need a resolution to fire anybody as of October 2014 nobody's getting fired without a resolution ! The BIA has now step foot in tribal politics....
Wow.....

Get the memo they're talking about that says they have to follow that directive then take it to ur tribal lawyer. They are a separate entity and now that they're pulling the other reign, they may very well start stating BIA directives along the way.
