Subject: AII-Lower Brule

[REDACTED] thank you for the call and clarification today. In reference to the Michael Jandreau serving as a Board member for the American Indian Institute for Innovation this is not accurate. AII had an initial discussion with Michael Jandreau in late 2008 about this possibility. Mr. Jandreau, expressed an interest, however he never followed up with any confirmation to his desire to serving on the AII Board.

During this time since Michael Jandreau expressed an interest, one of our staff members made a draft of a portfolio handout which listed Michael Jandreau, since he had expressed initial interest. This is and was not accurate. This older, inaccurate draft portfolio that was developed during this period, was sent around for review, however the portfolio was never finalized with Michael Jandreau as an Associate of AII.

On the South Dakota Secretary of State website under our organizational, you can see the annual reports that list the officers, and Michael Jandreau is not listed in any of these documents.

Thank you for the inquiry and the opportunity to provide detail of this situation.

stacy.
